

Global
Petromac Project LLC
(your energy partner)

SINCE 2010

About Us

Global Petromac Project L.L.C is an ADNOC-prequalified, ICV, and ISO-certified company specializing in comprehensive material supply and global sourcing solutions for the oil, gas, marine, and industrial sectors.

With a strong presence in the UAE and an extensive international supplier network, we provide end-to-end sourcing and supply services covering a wide range of products

Our deep understanding of project requirements and industry standards allows us to deliver materials that meet exact client specifications, ensuring quality, reliability, and timely delivery. Through strategic partnerships with global manufacturers and trusted distributors, we are able to offer competitive pricing and efficient logistics support across all categories.

At Global Petromac Project L.L.C, we are more than just a supplier — we are a strategic sourcing partner dedicated to supporting our clients in achieving operational excellence. Our team of experienced professionals brings technical expertise and market insight to every transaction, ensuring cost-effective solutions without compromising on quality or compliance.

As we continue to expand our sourcing capabilities and product portfolio, we remain committed to our core values of safety, sustainability, and customer satisfaction, providing reliable materials and services that empower our clients' success across industries.

MISSION

Our mission is to be the leading supplies and service provider to the oil & gas industry. Tailor-made to meet client's requirement and expectations, our objective is to maintain the highest quality services to our clients, most of who function in the most obscure and harsh weather conditions.

VISION

“QUALITY IN EVERY ASPECTS” To grow into a world class organization providing total solutions to organizations implementing projects, by continuously reinventing ourselves. We are dedicated to reducing energy wastage and carbon footprint thereby enhancing value to stakeholders, employees, clients, society and the humanity at large.

Industries We Serve

Marine

Power & Energy

Telecommunication

Aviation
